Truong Van Hung

Front-End Developer

Phone: 0964467833

Email: vanhung.work29@gmail.com

Website: https://hungg2951.github.io/portfolio

Address: Tu Liem, Ha Noi

OBJECTIVE

Frontend Developer with over 2 years of experience building web applications using JavaScript and React. Skilled in developing user interfaces with a strong focus on performance, scalability, and user experience. Seeking to join a professional environment to contribute to high-quality products while expanding Fullstack development skills and delivering long-term value to the company.

EDUCATION

2025 - Present

University of Transport and Communications
Major: Information Technology

2021 - 2024

FPT Polytechnic
Major: Web Programming and Design
Graduated with Distinction

WORK EXPERIENCE

4/2024 - 5/2026

VINCO Solutions Co., Ltd
FullStack Developer

Developed and maintained an eCommerce system using Next.js and React.js, ensuring a user-friendly, responsive interface and optimized user experience.

Tech stack: **Medusa.js (core, custom modules), Node.js, TypeScript, PostgreSQL, Next.js, React, Tailwind CSS, Zustand, TanStack Query, Stripe, PayPal, AWS (SES, S3)**.

Built and implemented key features:

- **Shipping Profile**: Configured shipping fees based on regions and order conditions.
- **Gift Card**: Created, managed, and applied gift cards during checkout.
- **Free Gift**: Automatically added promotional products based on conditions (order value, products, campaigns, etc.).

Developed custom features based on business requirements:

- **Design Customization**: Enabled users to personalize products (text, images, options, etc.).
- **Customer Segmentation**: Designed logic to segment customers based on conditions (purchase behavior, order value, location, etc.) to support marketing **campaigns** and **promotions**.
- Expand and modify the system logic to meet the specific requirements of the business.
- Integrated and worked with **Medusa.js** to build and enhance eCommerce backend functionalities.

Designed and consumed **REST APIs** to connect frontend and backend, ensuring stable and synchronized data flow.

Worked with **PostgreSQL** for database design and data querying across modules.

Optimized application performance using techniques such as **SSR/SSG**, **lazy loading**, and **code splitting** to improve page load speed and **SEO**.

Customized and extended **Medusa.js** using **custom modules**, **workflows**, and **hooks** based on business requirements.

Collaborated with cross-functional teams to develop and deploy new features following **Agile/Scrum** methodologies, using **Git** for source code management.

11/2023 - 3/2024

Daco Company Limited

Frontend Intern

- Customize website interface using open-source code, **HTML/CSS**, and **Javascript**.
- Build a website for your business using **WordPress**.
- Build a website interface in **Figma** using **Reactjs** and **Tailwindcss**.
- Technologies used: **Reactjs**, **REST API**, **Tailwindcss**

SKILLS

Programming languages	• **JavaScript, TypeScript**
Library, Frameworks	• HTML, CSS, Tailwind/Bootstrap Css, Ant Design • ReactJs, Nodejs, NextJs, Angular, ES6, React-hooks, Redux-toolkit • Restfull API, Async/Await, Promise, JWT • Reponsive website
DataBase	• PostgreSQL, MySQL, MongoDB/Express
Tools	• Visual Studio Code, Postman, MongoDBCompass, Git, pgAdmin4
Work process	• Agile/Scrum
Other	• Jira/Trello, Adobe Photoshop, Figma

PROJECTS

12/2022 - 2/2023

Movie theater management website

Front-end

Design the user interface and build the database for the system.

Develop the functionalities:

- Registration and Login (Express Token)
- Build a cinema management system with functions such as: managing screening rooms, seating charts, movies, showtimes, etc.
- Develop a ticket booking and payment flow integrated with **VNPay**.
- Build a feature to send confirmation emails after successful ticket bookings.
- Apply a full-stack solution using **React/Next.js** and **Node.js**, connecting to a database to manage system data.

The project received positive feedback from all judges.

HONORS & AWARDS

2025 Outstanding Young Employee of the Year

INTERESTS

Programming, listening to music, playing sports, playing games.
